Profile:

I'm Victor Umaru, a front-end developer, and BSc. Computer Science certified. I love transforming ideas into scalable web applications and bringing ideas to life. My journey in tech revolves around continuous learning, experimenting with new technologies, collaborating with talented individuals and building solutions that make an impact.

Work Experience:

Computer Analyst.

MARCH 2024 — PRESENT.

As a Computer Analyst at Phoenix University, Agwada, my responsibilities encompass a broad range of technical and strategic functions aimed at enhancing the university's IT infrastructure and supporting academic operations.

Data Editor at National Bureau of Statistics (NBS), Abuja.

AUGUST 2022 — OCTOBER 2022.

Worked as a data editor at the National Bureau of Statistics, Nigeria, on the National Agricultural Sample Census (NASC) project, where I was responsible for validating data collected from various sources as a freelancer during the contract period.

Back-end Software Developer at AmtelWeb Solutions, Abuja.

JANUARY 2022 — NOVEMBER 2022

Utilised modern software development tools and frameworks in production and unit testing.

Technology stack:

- PHP
- Postman
- MySQL

Software Developer at U-lite Press

FEBRUARY 2022 — MAY 2022.

Built a professional landing page and an inventory management system for the company.

Technology Stack:

- TailWindCSS
- HTML/CSS
- ReactJS

Software Developer at Aisha Poultry, Keffi.

APRIL 2021 — JUNE 2021.

Helped to increase accurate record tracking and customer return rate by building a poultry management system for the poultry farm that keeps records of its inventories, payroll and staff records.

Technology Stack:

- Django
- HTML/CSS
- MySQL

Front-end developer at LightBox, Abuja.

MARCH 2020 — SEPTEMBER 2020.

I worked as a front-end developer on various production projects at the company for various clients.

Technology stack:

- HTML/CSS
- React
- TailwindCSS

Co-developer at NIRAN & Co. Estate Management Company, Abuja.

OCTOBER 2019 — DECEMBER 2019

The NIRAN estate management system is software that manages the entire work process of Niran, utilised for tenants and property management.

Technology stack:

- Java & JavaFX
- MySQL

Home Appliance Control System.

SEPTEMBER 2018 — OCTOBER 2018.

Built and installed an IoT-based home appliance control system for a client's private apartment.

Technology Stack

- Lua
- MQTT
- JavaScript
- HTML/CSS

Internship

Server Administrator, Network Technician at E-Library, NSUK.

APRIL 2017 — OCTOBER 2017.

Worked under the E-Library unit of the Nasarawa State University Library, and as an undergraduate intern, I was attached to work with different sections of the E-library, which includes:

- Server Administration
- Data & Network Security
- Koha Integrated Library System

Education:

BSc. Computer Science
Nasarawa State University, Keffi.
OCTOBER 2014 — OCTOBER 2019.

Graduated with honour in Computer Science.

Secondary School Certificate
ECWA Peace College, Nasarawa.
SEPTEMBER 2006 — JULY 2012.

Graduated with the honour of SSCE.

Primary School Certificate
St. Kizito's Nursery & Primary School, Nasarawa.
1997 — 2006.

Completed with an FSLC award.
